Integrated Policy

Quality Safety Health and Environment Management System (QSHE)

Eastern Water Resources Management and Development Public Company Limited

"To be a leader in ensuring national water security through integrated and sustainable water resource management and development, empowered by smart technology and driven by excellence in integrated management systems."

- 1) We are committed to conducting our business in compliance with good corporate governance principles, applicable laws, internal regulations, international QSHE standards, and all relevant commitments, which serve as the fundamental basis for our operations.
- 2) Deliver quality products and services that satisfy stakeholders by enhancing service capabilities and continuously improving.
- 3) Develop and support quality innovations that are safe for society and the environment throughout their entire life cycle.
- 4) Committed to protecting the environment and promoting sustainable occupational health and safety.
- 5) Promote stakeholder engagement through QSHE-related activities.

The integrated policy shall be implemented by the management team, employees at all levels, and all stakeholders. It will also be communicated to the public through various channels.

Announced on 18 May 2023.

-Signed-
